Overview

Innov'COM Laboratory (SUP'COM Tunisia) is organizing the Engineering Summer School E2S'2019 event in collaboration with its main partner University of Gloucestershire. Speakers from research laboratories in the most prestigious European universities and from Industry pioneers in Industry 4.0 are joining us in this special event. The 2019 edition of this school, is co-sponsored by industrials and scheduled for the 26th and 28th of April 2019 at the Higher School of Communication of Tunis – El Ghazala Techno Park Ariana.

The E2S 2019 event addresses the real opportunity for the Industry 4.0 applications it explores groundbreaking Cybersecurity technologies and solutions that researchers and industrials can nowadays use to increase productivity and bring on new revenue opportunities.
The event will include three main sessions: four talks, two workshops, industrial/poster session, which focus on the latest and most important innovative areas, and highlight the Industry 4.0 and Industry IoT solutions and strategies that will most likely result in thriving success.
Furthermore, IS-NoT'2018 event encourages researchers to present innovative ideas in the poster session. Certifications will be offered to all accepted papers and awards to the three best presented posters.
